- Bootstrap
- Docker
- Shell Scripting
- MySQL
- Good Communication Skills
- Problem Solving Skills
- Decision- making Skills
- ATS - Ceipal, JobDiva, CB
- MS 365 / Office 2021

EXPERIENCE

- TMV Global Inc** **Nov 2023 - Jan 2024**
US IT Recruiter | Remote
Worked as US IT Recruiter in a public staffing and IT Software Services company, this company works for direct clients and prime vendors for several clients. My job to handle the complete recruitment cycle and it includes sourcing and submitting the right candidate for the requirements, conduct phone interviews with candidates to pre-qualify their skill-sets and interest in the targeted positions.
Roles and Responsibilities :
 - Sourced and screened candidates for contract and full-time roles through job boards and referrals using the ATS.
 - Conducted telephonic interviews and arranged client interviews.
 - Prepared daily and monthly reports, maintaining a Candidates Tracker Sheet in the ATS for efficient tracking.
- Oasis Infobyte** **Aug 2023 - Sept 2023**
Web Developer | Internship | Remote
During my remote internship as a web developer, I worked on various projects that enhanced my skills and contributed to the company's goals. This experience allowed me to apply my knowledge of HTML, CSS, Media Queries and JavaScript in real-world scenarios while collaborating with a them.
Roles and Responsibilities:
 - Completed web development tasks focused on front-end.
 - Assisted in creating project documentation for knowledge sharing.
 - Actively sought feedback and engaged in self-learning to stay updated with emerging web technologies.

PROJECTS

- **TheDumbleGym Website**

Technologies : HTML, CSS, Bootstrap, Git/GitHub

I developed a responsive and user-friendly gym website that showcases services, pricing plans, and community features. The website utilizes HTML for its structure, CSS for styling, and Bootstrap for a modern layout, ensuring compatibility across various devices. Additionally, I implemented interactive elements such as a pricing table and contact form to enhance user engagement and facilitate communication.

- **Personal Movie Rating Site**

Technologies : Html, CSS, Bootstrap

The Personal Movie Rating Site is a platform to organise and display all the movies I've watched, complete with my personal ratings. It categorizes films by genre and allows easy filtering for quick navigation. This project is perfect for tracking and revisiting my movie journey. Currently, I'm actively working on building and refining it!

EDUCATION

- **Master of Computer Applications - MCA**

Amity University, Noida

2023 - 2025

- **Bachelor of Computer Applications BCA**

IIMT University, Meerut

2019 - 2022

- **12th Grade (Science)**

Ved International School, Meerut

2018 - 2019
